Additional Resources

A Parent's Guide to Facebook

<http://www.connectsafely.org/pdfs/fbparents.pdf>

This guide is designed to help parent's understand what Facebook is and how to use it safely. It will help parents be more informed and able to communicate with young Facebook users. That's important because 1) if something goes wrong, we want our children to come to us and 2) as the Internet becomes increasingly social and mobile, a parent's guidance and support are ever more key to young people's well-being in social media and technology.

Internet Safety for Teens 'Get Cyber Savvy'

http://mypolice.ca/children_and_youth/cyber_safety.html

A PowerPoint presentation intended to help parents understand what is going on in their teenager's world. It provides excellent questions to ask yourself and your teen about their activity online.
