

# VISIONS ACADEMIC PROGRAM

## An “Educational Family” for Secondary IV and V PCHS students

**Visions is a grad-track program** for students who plan to graduate high school with an option to continue their post-secondary studies.

The Visions Academic Program offers a Secondary IV and V curriculum, and all participants *must* take the ministry exams required for graduation.

Evaluations and report cards do not differ from the rest of PCHS.

**The Visions Academic Program stresses both personal growth and academic achievement in a positive, supportive environment.**

Visions students benefit from:

- Smaller class sizes
- Semestered courses
- Fewer teachers
- More individual attention
- Staff and peer mentoring

**Are you:**

- Struggling to stay motivated?
- Feeling anxious about school?
- Looking to find a supportive environment?
- Needing help with organization and/or assignments?
- Wanting to be a part of something special?
- Hoping to reach your full potential?

If you are interested in joining the Visions Program applications will be distributed, and interviews will take place at PCHS during the month of April.

\*Important: If you are selected to join Visions, you will be asked to commit to the program by:

- 1) Completing assignments
- 2) Arriving on time
- 3) Limiting your absences without Doctor's notes (8 days maximum)
- 4) Demonstrating appropriate behaviour/respect for your teachers and peers.

\*Students may be dismissed from the program if they do not meet expectations.

**Space is limited!**
